

NOX-JOHNSON SLATE DISCUSSED AT LENGTH BY G. O. P. DELEGATES

John T. King, Former Wood
Manager, Connected With
Latest Movement

CHICAGO, June 2.—Pre-convention atmosphere got its first stir today from developments in the Republican national committee and movements among delegates gathering for the contest at week.

Testimony before the senate committee investigating campaign expenditures that sums of money had been paid to delegates in Missouri, counted as supporters of Governor Lowden, held the attention of a while when talk of a Knox-Johnson candidacy became the topic of the day. Some of the gossip connected John T. King, national committeeman from Connecticut, and formerly General Wood's manager, with the Knox-Johnson movement, but Mr. King declined to say anything for publication. Johnson headquarters merely stated that the California senator has placed himself on record as refusing a second place on any ticket.

The Republican national committee's hearing of contests was given by some hotly debated issues and also by a visit from Senator C. Cummings, chairman of the Democratic national committee. Mr. Cummings, availing himself of the open session, visited the hearing room, where he became the center of a good natured reception which almost drowned out the proceedings. He was photographed with Republican Chairman Hays and looked over the Coliseum for ideas to take to San Francisco.

In its day's work on the contests the committee threw out both sets of delegates which would seat for the fifth congressional district of Missouri, the Kansas City district. A fierce and heated controversy was aired at a long hearing. Deciding the first case affecting the strength of the Johnson forces in the contest, the committee, on a roll call, voted to seat the delegates from the tenth Minnesota district who are unopposed but counted as favorable to the candidacy of the California senator. The defeated delegation was lodged to the candidacy of General Wood.

In the Mississippi contests, the committee decided to seat the delegates at large headed by National Committeeman Mulvihill but did not decide on the contests from the Eighth congressional district because it was necessary to have a sub-committee look over the proofs. In the Louisiana contests the committee voted to seat the officially reported delegation headed by National Committeeman Emile Kuntz of New Orleans, which was unopposed but claimed for the Wood forces, and in part by the Lowden managers.

The contest from the fourth Missouri district was quickly disposed of by seating the regularly reported delegation, unopposed, but claimed by the Wood forces. One of the contestants, John Albus, of St. Joseph, who was mentioned in testimony before the senate committee as having been paid \$2,000 from the Lowden campaign fund, did not appear to press his case.

The real sensational fight of the day came on the contest from the Kansas City district which the committee finally solved by refusing to seat anybody. Charges of strongarm tactics, money brokering, and mustard gas bombs, women intimidated by negroes and gag rule flew thick and fast.

Committeeman denounced the situation in the district as "disgraceful and tainted with fraud," and after voting down by a close vote a motion to seat the regularly reported delegates, Robert J. Flick and Jesse L. Martin decided to seat none of the parties. This action reduced the total number of votes in the convention from 984 to 952 and furnished the first case in which a district will be left without representation in its deliberations.

The net results of the day's work were to bring the number of contests disposed of up to 32 out of the 137 filed.

The Georgia and Florida cases continued to hang fire in sub-committee and there was a disposition evidenced in the full committee meeting today to check the practice of referring disputes rather than having the national committee decide them first hand. There was some discussion on the subject but reference was made to the sub-committee and later in the day and when the session adjourned until 9 o'clock tomorrow morning the first of cases in sub-committee had been supplemented by the reference of the eight congressional districts of Mississippi, where the regularly of the district convention call is to be determined.

Many of the committeemen expressed their satisfaction with the decisions of today, although there were proposals to straddle some contests by splitting the votes between the two delegations. Between the contestants and contestants, Committeeman Howell of Nebraska led the sentiment which argued that the committee would check the flood of contests if it were to make definite decisions and send word back into the districts that no compromises would be tolerated.

Sproul Throws His Hat Into Ring

PHILADELPHIA, June 3.—Governor William C. Sproul at a caucus of Pennsylvania national delegates here today announced that his name would be presented to the Republican national convention as a candidate for president, but that he was opposed to the delegation taking any formal action as a unit.

Despite the wishes of Governor Sproul that he be not formally endorsed the delegation unanimously adopted a resolution "unreservedly" endorsing the governor for the presidential nomination and pledging him its solid support. Mayor J. Hampton Moore of Philadelphia will make the nominating speech according to present plans.

The governor said: "I have just had a long and satisfactory conversation with Senator Penrose. He is in better health than in several days. This convalescing steadily there is a complication of local disorders which keeps him in home bound. The senator says he expects to go to Chicago. He will leave as quickly as advisable to do so. He says he fully expects to be in Chicago on Sunday."

GIVE GOVERNOR POWER TO ACT ON PARDONS

Report of Legislative Committee
of Constitutional Convention
Approved at Wednesday Sessions.

Springfield, Ill., June 2.—Power to grant conditional as well as unconditional pardons would be given to the governor by a section of the legislative committee report approved by the Illinois constitutional convention today. The convention meeting in committee of the whole had the legislative committee's proposal under discussion the entire day and adopted the first fourteen sections, most of which are identical with the present constitution. The section providing for the pardoning power of the governor as finally adopted reads as follows:

"The governor shall have power to grant reprieves, commutations and pardons after conviction, for all offenses either unconditional or upon such conditions and with such restrictions and limitations as may be proper according to law, subject to such regulations as may be provided relative to the manner of applying therefor.

One section providing for appointment by the governor of the secretary of state, attorney general, treasurer and superintendent of public instruction was rejected by the convention after a long debate. The committee proposed that this be submitted as a separate section to the convention.

The section had the support of a number of Cook county delegates led by Morton D. Hull of Chicago. In the Mississippi contests, the committee decided to seat the delegates at large headed by National Committeeman Mulvihill but did not decide on the contests from the Eighth congressional district because it was necessary to have a sub-committee look over the proofs. In the Louisiana contests the committee voted to seat the officially reported delegation headed by National Committeeman Emile Kuntz of New Orleans, which was unopposed but claimed for the Wood forces, and in part by the Lowden managers.

The contest from the fourth Missouri district was quickly disposed of by seating the regularly reported delegation, unopposed, but claimed by the Wood forces. CHARGE PALMER WITH BETTING DOWN BARS DURING HIS CAMPAIGN

Broadside Attack Launched
on Attorney General at
Senate Investigation

WASHINGTON, June 2.—(By The Associated Press.)—A fiery cross-table battle between Attorney General Palmer and Eugene Bonniwell of Philadelphia, bristling with direct charges of the misuse of federal power to let down the liquor bars during the Pennsylvania presidential primaries on the one hand and of attempted "character assassination" on the other marked Senate investigation today of pre-convention campaign expenditures. The attorney general appeared unexpectedly in the committee room during the luncheon recess after Mr. Bonniwell had launched a broadside of charges, including an assertion that the whole "Palmer campaign in Pennsylvania had been a ghastly and debasing degradation of law."

Mr. Bonniwell was recalled to the stand and Mr. Palmer, the first candidate for a presidential nomination to appear at the inquiry, took a seat across the table from the witness who it was brought out, was a political enemy of long standing.

News of the impending clash spread rapidly and the hearing room soon was crowded. When Mr. Bonniwell concluded, Mr. Palmer replied, opening with the charge that Mr. Bonniwell had employed "character assassination" methods against him in Pennsylvania for years and concluding it with the assertion that in Pennsylvania, "Judge Bonniwell's word is not evidence of fact."

Palmer's of the combat had hardly died away before a new element was injected with the refusal of Senator Edge, Republican New Jersey, to attend further sessions. The senator said he believed approximate figures on all pre-convention expenditures had been obtained and that further inquiry would result only in the airing of "charges, counter charges, intimations and insinuations."

He added that no federal law had been broken as there was no federal primary law to break. Before Mr. Palmer appeared the committee had inquired into the activities of the Plumb plan league made further effort to run down presidential campaign for G. McAdoo and heard two officials of oil companies who had been mentioned as possible large contributors to political campaigns.

Edward Keating, manager of the Plumb plan league, declared the league had taken no part in any pre-convention political activity. He had not contributed any money and did not plan to participate in the convention struggles. He added, however, that it did seek to defeat members of congress who voted for the transportation act.

Mrs. Antoinette Funk of Illinois, declared positively that no campaign for obtaining the Democratic presidential nomination for McAdoo direct or indirect, existed.

H. F. Sinclair, New York, and Norman Bridges, oil magnates, declared that they had been active politically.

Mr. Bonniwell testified that he had conducted the McAdoo campaign over the direct, personal appeal of Mr. McAdoo to his name used, which prevented its appearance on the ballots and necessitated stickers.

Describing the interview with Mr. McAdoo, the witness first touched on his charges about the Palmer Pennsylvania campaign. He asserted that it was general knowledge in the state that when the Palmer movement was threatened the "bars had been laid down" suddenly; that liquor warehouse doors were thrown "wide open" suddenly, under the eyes of the department of justice and prohibition enforcement officers of the federal government, particularly in the coal counties and that the whole Palmer campaign not only was a ghastly and debasing degradation of the law, but an "invitation" to law violators.

Mr. Palmer on the stand denied what he characterized as "the state charge that he had granted 'immunity' to prohibition violators in Pennsylvania. He declared that on the contrary arrests had been made and the cases prosecuted during the election period.

Thruout Mr. Bonniwell's testimony and his reply to Mr. Palmer and also in Mr. Palmer's testimony, old political battles in Pennsylvania re-echoed. The committee asked no questions on these points nor any questions of Mr. Palmer and when Mr. Bonniwell concluded his brief answer the incident was closed and the committee began examination of John H. Rossiter of San Francisco in connection with Senator Johnson's campaign in California.

This recommendation will be referred to an advisory committee which is to meet in the near future to take final action as well as to consider all phases of the wheat situation. The committee of sixteen decided that trading should be under as liberal a contract so far as delivery of grades concerned, as might seem reasonable to each exchange and under such regulatory powers by boards of directors as each exchange might deem necessary to preserve the integrity of its contracts.

LOWDEN DENIES FUNDS WERE SPENT ILLEGALLY IN MISSOURI CAMPAIGN

Denounces Missouri Delegates
Who Testified Before
Senate Committee

CHICAGO, June 2.—Governor Frank O. Lowden tonight in a formal statement, disavowed for himself and for his campaign manager, L. L. Emerson, any illegitimate expenditures from his campaign fund and denounced the two Missouri delegates who testified before the senate committee as having received contributions expecting to vote for his nomination. The payments were made to the men for organizational purposes, Governor Lowden's statement declared before Mr. Emerson knew they would be candidates for delegates, and the governor declared that he would not accept their vote in the convention if cast for him.

At the same time the governor spoke for legislation to control limit and give publicity to campaign expenditures. His statement follows: "My instructions to Mr. Emerson were to use no money, except for legitimate purposes of the campaign and to make no expenditures which could not be made public. He has assured me that my wishes in this respect have been absolutely complied with and I have full faith he has told me the truth."

"Personally I knew nothing until I read his testimony of the payments to Moore and Goldstein. Mr. Emerson informs me that these contributions were made in January long before the delegate conventions were held and that the personnel of the Missouri delegation was at no time discussed with them; that the contributions were made upon the representation that the amounts were required for the organization of their districts. Further, he tells me he did not know at the time that either of them would be a candidate for delegate. However, the testimony of Moore and Goldstein before the senate committee reported in the press clearly shows that they are not fit to sit in a national convention and certainly I will not accept their support."

"This goes for any other delegate or delegates. If any, similarly situated. The vice of the whole thing inheres in the present system. Trusting existing conditions for the residence necessarily requires the expenditure of a great deal of money even for legitimate purpose. I suppose no system can be devised to avoid some expenditures but I do think that congress should clearly define the purpose, limit the amount and force an accurate disclosure, under proper penalties, of the source of all contributions, and to whom paid and for what purposes paid."

"If this government is to survive, some method must be devised to protect the great presidential office from even a suspicion of corruption."

URGE BOARD TO CLOSE PUBLIC HEARINGS

Judge R. M. Barton, chairman said in reply, but desired to give a hearing to all groups entitled to come before it. The board then listened to arguments presented by J. G. Luhrs, president of the American Train Dispatchers' association, a new organization.

Judge Barton said the board would meet as usual tomorrow to hear what rebuttal the executives may care to present.

Harding And Johnson Arrive Upon Scene

CHICAGO, June 2.—Two more presidential possibilities will arrive here tomorrow. Senator Johnson is due at noon, while Senator Harding will get in several hours later. All the Johnson clans gathered at his headquarters today and tonight and formed plans to meet the senator and march to his headquarters.

Senator Harding will be greeted by the Ohio delegation and escorted to his headquarters on presidential row. The advent of these two senators will bring the total of announced candidates in Chicago up to four. Governor Lowden and Major General Leonard Wood having been on the scene several days.

This appeared to be handshaking day along presidential row with the arrival of delegates and visitors. The center of discussion among politicians who have abandoned the national committee to gossip along the row still centers in the senate investigation of campaign expenditures at Washington. Their chief discussion seems to center on whether it has done any damage to any candidate and if so, which one.

MISS GLADYS ANDRE NOW BRIDE OF MR. F. L. BUCK

Impressive Wedding Ceremony
at Central Christian Church
Wednesday Night—Reception
at Andre Home.

Miss Gladys Lu Vica Andre became the bride of Mr. Fredrick L. Buck of Springfield Wednesday night in one of the most impressive ceremonies ever seen in Jacksonville.

The Central Christian church was beautifully decorated for the occasion with ferns, white peonies and smilax. The altar, banked with the green and white made a most artistic background for the ceremony.

Beginning about 8 o'clock and while the guests were gathering, Mr. Edward Miller of Peoria played several organ numbers. Mrs. A. Wehl sang four songs, and just as the wedding party entered Mrs. Helen Brown Read appeared in the east door of the choir, and sang, "Beloved, It Is Morn."

Then to the strains of the "Bridal Chorus" from Lohengrin the wedding party appeared. The bride party, including the bride's maids, the matron of honor, the maid of honor, and the bride on the arm of her father, passed down the east center aisle. The bridesmaids entered at another door and preceded the groom and the best man down the west center aisle. The two parties met at the altar, where Myron L. Pontius performed the ceremony, using the Episcopal service. The bride was given away by her father, G. B. Andre. During the ceremony Mr. Miller, at the organ, played the wedding hymn, "O, Perfect Love."

Then to the strains of the wedding march by Mendelssohn Mr. and Mrs. Buck led the recessional. Others in the party were Mrs. George Orear, matron of honor, Miss Beulah McMurphy, maid of honor; Miss Phoebe Mayfield, Miss Eleanor Masters, Miss Helen Allcott, and Miss Luck Buck, sister of the groom.

The bridesmaids were Myron L. Pontius, best man, Dick Reynolds, Pount Andrews, John Lynd, Harry Smith and Denham Harney, ushers.

Mr. George Orear was the master of ceremonies.

The musical program at the service was as follows: "Nuptial March" (Roeckel); "At Sunrise" (Diggle); "A Song of Gladness" (Sibley)—Edward Miller.

"Come, for It's June" (Forster); "At Dawning" (Cadman)—Mrs. A. Wehl.

REP. MASON CHARGES BARUCH WITH STEALING \$200,000,000 FROM U. S.

Investigation of Charges Asked
by Former Chairman of
War Industries Board

WASHINGTON, June 2.—B. M. Bruch, former chairman of the war industries board, wrote to Representative Mason, Republican of Illinois today asking that he submit at once to congress and the attorney general the evidence which prompted him to charge in the house recently that Mr. Baruch had "stolen \$50,000,000 from the government in copper alone."

Mr. Baruch further demanded that he be "immediately brought to the bar of justice and condemned to punishment if found guilty and exonerated if innocent from the infamous and malicious charge you make against me."

Mr. Mason, in a letter of reply made public said that since looking over his previous statement he would amend it to say that "you and your associates stole \$200,000,000 in copper alone." He added that the matters on which he based his charges already were before congress in connection with the investigation of war expenditures.

"You certainly do not expect me to present this matter to your particular friend, Mr. Palmer, attorney general," Mr. Mason said and added, "I shall, if I live, ask the attorney general of the United States after March 4, 1921, to proceed civilly and criminally against you and your associates."

Declaring that Mr. Baruch when head of the war industries board had appointed a co-operative committee of copper with John D. Ryan of New York as chairman, and presidents and owners of copper producing plants in the United States as members, Mr. Mason charged that this committee had allowed copper producers to buy at one price and sell at another.

He also charged that this committee over the war permitted 100,000,000 pounds of copper which the government, he said, purchased at 23 cents a pound, to be sold back to the producers at 15 cents a pound.

MEREDITH DISCUSSES PRINT SHORTAGE

WASHINGTON, June 2.—The high cost of timber and newsprint paper is due in no small measure to decimation of the forests of the east. Secretary Meredith informed the senate today in transmitting a report by the forest service.

"Scarcity of timber in the eastern states is by no means the only cause of high prices," said the secretary's letter. "But the facts remain that three-fifths of the original timber of the United States is gone and that we are using timber four times as fast as we are growing it."

The report estimated that 2,215 billion feet of timber is left in the United States and that there had been no marked change in the concentration of timber ownership during the last ten years.

Secretary Meredith endorsed the position taken by the forest service that the fundamental need is a national policy of reforestation with enlargement of the national forests on a wide scale and legislation which will enable the forest service to operate effectively with the states in stopping forest fires and growing timber on state and private lands.

The Danish government is said to have purchased 100,000,000 tons of coal of American

production. Perhaps after all it's this export demand instead of the car shortage which is creating the abnormally high prices at home.
It has looked favorable for legislation down at Washington to give employees of the postal department the increase of pay merited but the committee recommendations for increase made after so many months of investigation are disappointing. The increases are not large enough—do not make the pay of postal employees at all commensurate with all that they could earn in other lines of work.

If the decision of the supreme court on the prohibition amendment gladdens the hearts of the wet forces it will be the first thing in that line to happen in

these many months. However, such a finding seems now almost beyond the range of possibility since the court, by unanimous decision has declared that the action of the legislature approving federal amendment cannot be referred to the people. This sounds like a final blow to John Barleycorn.
WHY NOT A PERMANENT DEAD LINE?
The chief of police of Chicago has announced that all known crooks and pickpockets have been notified that they must keep out of Chicago, during the big convention, that they will be arrested on sight. To the unsophisticated downstate men it seems a strange thing that a temporary dead line can be established beyond which the "bad man" must not cross. Why wouldn't it be a good thing to have this dead line permanently instead of temporarily drawn?

NON-ESSENTIAL CITIZENS
A cartoonist in picturing a non-essential citizen presents a farmer who allows the weeds to grow in his fields and to scatter their destructive seed in fields adjoining. This is equally applicable to the owner of a city lot who permits the weeds to grow. His misdemeanor is greater than that of the farmer, for in the town or city the high grown weeds not only scatter seeds but mar the landscape and often foster disease. But fortunately in Jacksonville there will be few weeds this season for the Civic Pride league is already at work and the ladies in the movement are finding people ready and willing to co-operate in the good work.

THE MISSOURI CASE
Much ado is being made about the \$38,000 that the Lowden campaign committee sent into Missouri. If the money was not properly distributed there—that wrong—if there's a grief we grab is, used for legitimate purposes of publicity—the fact should in every ill we treasure; we've grown no way reflect upon the Lowden campaign management. In the very beginning Gov. Lowden declared his willingness to account

for every dollar spent and as soon as asked the books were produced and the statement made not only as to Missouri expenditures but about the money sent into every other state.
Thirty-eight thousand dollars is a comparatively small sum to use for a publicity campaign through more than 100 counties.

THE SALVATION ARMY'S GOOD WORK
The Salvation Army is arranging for an advisory board in every county of the state. The organization has been very successful in several lines of philanthropic and welfare work. In the past most of this work has been done in the large cities and now the army seeks to have the same systems applied in the smaller cities and towns.
Time was when the Salvation Army had a hard time to gain recognition. As an organization it was often scoffed at and frequently leaders in the movement, who carried on open air meetings, were arrested for disturbing the peace. That prejudice was largely wiped out years ago. Then came the war and the wonderful record that the army made at that time placed the organization in the very front rank as a great agency for public welfare.
The Salvation Army today commands a respectful hearing on every occasion and every place and is doing most praiseworthy work along various lines.

off our carping ways, our grouches will defeat us. And we land at heaven's door, led there by priestly-tutor, we'll call St. Peter down and roar, and say the crows are power. We let the trifling ills annoy, in knocks there's satisfaction; and so we've spoiled ourselves for joy, for sane and cheerful action. The workman looks about his wage, the boss is sore as blazes, and e'en the poet and the sage are framing dismal phrases. It's hard to find a normal gent who smiles and sings and twitters, who brags no word of discontent, nor talks of taking bitters.

A FINE APPRECIATION.
The following editorial from the Des Moines Register is a fine appreciation of the great gathering recently ended in the capital of Iowa.

A World Church.
The fact most worth noting about the great Methodist conference yesterday is that a world point of view dominated every deliberation. That the Methodist church is a world church, that no local prejudices or demands must be allowed to stand in the way of a world mission, was the lesson of every hour of the four weeks of deliberation.
It was not merely that many new bishops were named to assume the responsibility of organizing in new lands, it was not merely that colored men were elected to the bishopric in full and equal standing, it was not that delegates from the ends of the earth came with a new vision, although all of these were signs of the times. It was that the world spirit which had its beginnings with our entry into the war, had created a new American mind and that mind was reflected in this gathering as in no other gathering of equal significance has been held.

A competent critic of another denomination looking on the great conference in session remarked that there were assembled the ablest body of men in world affairs in the world. That was an unusual commentary and yet it will bear analysis. It is the business of the Methodist bishop to appraise correctly all the tendencies of the land where his superintendency lies. A man of training and talent, with thoroughgoing organization, with capable assistants, he knows more about all that is going on in the various parts of the world than our diplomatists and travelers. No equal body of men devotes equal time and deliberation to the problems of world organization. What does it signify that four weeks have been spent in constant

session by selected men and women, listening in morning, afternoon, and evening to reports from every corner of the earth, not to mere travel tales, but to carefully edited reports of carefully conducted investigations, and that throughout it all has run that conviction that always goes with a good and great work, done in a spirit of fine devotion to a noble cause? Every delegate goes back filled with enthusiasm, every bishop has under him for another four years a little army fired with a new zeal, inspired with new determination, and fortified with fuller knowledge.

The assurance we may draw from it is that no matter how one part of the human advance may falter and fall back, on the whole the forward movement is determined and secure. Our political leaders may become stampeded. A little America may be the program of all of our political parties. But the Red Cross internationalizes, the Y. M. C. A. internationalizes, the Methodist church internationalizes. Out of our abundance we give to the need of peoples we had scarcely heard of before. And so in countless ways we bind together in one mighty forward movement of humanity and bring nearer to view a world that has eliminated the coarser forms of savagery, and committed itself a little more to the sublime statesmanship of the golden rule and the sermon on the mount.

Despite All the Talk
Clothes will not be appreciably cheaper this summer, any they will not be any cheaper next fall—nor until the supply of wool equals the demand. Like the "Overall Fall," this talk of prices coming down is just some one's brainstorm—done to scare folks into buying things they possibly could get along without. And say, you know orders for next fall have been placed long ago—every merchant knows now just what his prices will be then

WINCHESTER GIRL

MARRIED WEDNESDAY

MISS MARGARET COULTAS, BECOMES BRIDE OF RALPH M. OVERTON OF ST. LOUIS—OTHER HAPPENINGS IN SCOTT COUNTY

Winchester, June 2.—Wednesday evening at the home of Mr. and Mrs. Irwin E. Coultas occurred the marriage of their daughter, Miss Margaret, to Ralph M. Overton of St. Louis, in the presence of a small company of relatives and intimate friends. The bride was Miss Margaret Coultas, daughter of Mr. and Mrs. Irwin E. Coultas, of Winchester, Ill., and the groom was Ralph M. Overton of St. Louis, Mo.

The ceremony was performed at 6 o'clock by the Rev. C. W. Caskey.

As the music of Mendelssohn's wedding march was played by Miss Martha Priest of Jacksonville, a cousin of the bride, the bride party took their places before a bank of ferns and cut flowers. From the wings of the canopy extended loops of white satin ribbon connecting tall baskets filled with opheelia roses. The bride entered on the arm of her father. She was attired in a gown of white chiffon crepe with a veil of tulle, caught with orange blossoms and carried a shower bouquet of bride's roses and lilies of the valley.

The maid of honor wore pink organdie and carried a bouquet of Killarney roses.

Following the ceremony a three-course wedding supper was served by Misses Louise Townsend, Elizabeth Rourke and Marinda Coultas, cousins of the bride.

Mrs. Overton is a graduate of Winchester high school and Illinois Woman's college, where she was a member of Belles Lettres. She served as an army student nurse at Camp Grant during the days of the war. A young woman of charming personality, she has been a favorite in Winchester social circles and is much admired by all who know her. Her many friends will regret to lose her from the community.

The groom graduated from the Winchester high school and at the University of Illinois, where he was a member of Theta Chi and of the honorary engineering fraternity, Beta Pi. He was with the A. E. F. for eighteen months and is now an engineer with Laclede Christy Co. of St. Louis. He is the only son of Mr. and Mrs. James Overton and is a young man of fine character. He spent his entire life in Winchester until after his graduation from the high school, and is one of the most promising young men the community has produced.

The heartiest congratulations are extended to both Mr. and Mrs. Overton by their many friends. They will make their home in St. Louis.

Mrs. Thomas Kirkman left Tuesday for Waverly to attend the funeral of Miss Anna Long. The deceased was a teacher at Williams school in Scott county for several years and had many friends in this community.

Miss Olga Hieronymus left yesterday for Quincy where she will study at the Gem City business college.

A little son arrived Tuesday at the home of Mr. and Mrs. Fred Woodall. T. C. Hill of Decatur was a visitor here Wednesday.

Miss Frances Comey of Chicago is a guest at the home of Miss Winifred Morris.

Arthur Mirus of Beardstown arrived Wednesday afternoon for a short visit with relatives.

The funeral of Mrs. David Welch was conducted Wednesday afternoon at the Christian church at 2:30 o'clock. Rev. Mr. Morris officiating. There was a large company of friends of the deceased present to pay a last tribute of respect to her memory.

Musical was furnished by members of the church choir and the floral offerings were cared for by Mrs. Roy Welch, Mrs. Dollie Walker, Miss Belle Kirkpatrick and Miss Juanita Welch. Interment was in Winchester cemetery and the bearers were Garland Overton, Eli Patrick, Jackson Canatsey, William Wells, Leo McLaughlin and Frank Pressen.

FUNERAL OF FORMER WHITE HALL MAN

Remains of Luther H. Andrews Brought From Canton for Interment—Young Man Met His Death Under Wheels of Train Sunday Morning.

White Hall, June 2.—The remains of Luther H. Andrews arrived here this afternoon over the Burlington from Canton, Ill., where he met death Sunday morning about 10 o'clock by being run over by a train two miles out of Canton. His age was 29 years, and he was the son of Mrs. Mary Andrews of White Hall. He served with Field Hospital 309, 84th Division, during the World war, arriving home a year ago last month. His condition at that time caused his mother to realize that he could not again become a normal man. The nervous strain from shell shock had a telling effect at times.

He went to Canton last summer and became employed in the plow works. About six weeks ago word came that the young man had attempted suicide, and for a couple of weeks he was confined to a hospital with wounds inflicted with a knife. He told his mother he could not account for the action. The dispirited mother came home last Saturday in company with her son, Ellis, after having nursed her soldier boy and seen that he was settled in the hospital at Bartonville.

The patient had been in the institution about two weeks and early Sunday morning he escaped. He was on his way back to Canton, walking along the railroad track, when he was run down by a train within two miles of the city about 10 o'clock Sunday morning.

Funeral services will be held in the First Baptist church at 2 o'clock Wednesday afternoon under the auspices of the American Legion post of White Hall and Roodhouse. Chaplain A. F. Ewert will deliver the discourse. The remains will be taken to Greenfield for interment with military honors. Deceased was a member of White Hall post.

HOME MADE RECIPES CATARRH AND COLDS

Nonexpensive—Cut This Out.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Ask your druggist for three quarters of an ounce of Mentholized Arcline and pour it into a pint bottle, then fill the bottle with water that has been boiled. Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

WAS NERVOUS AND RUN DOWN

RESTORED TO NORMAL HEALTH BY BIO-FEREN

"I feel I owe you people a world of gratitude for the benefit I have received in using your wonderful remedy—Bio-feren Tablets, which have completely restored me to normal conditions," says Joseph E. Webb of Muncie, Indiana.

Bio-feren is without doubt the grandest and quickest remedy for nervous, run down, weak, enemic men and women ever offered direct through the druggists and is not at all expensive.

Take two after each meal and one at bed time, and after seven days take one after each meal and one at bed time until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel ambitious, more vigorous and keen minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

All druggists in this city and vicinity have a supply on hand, or can easily get it for you. "Seven a day for seven days—Wonderful results."

NETTIE L. VALENTINE PASSES AWAY SUDDENLY

Well Known Resident of Concord
Dies of Cerebral Hemorrhage—
Coroner Rose Held Inquest.

Mrs. Nettie Lenora Valentine
died at her home in Concord
Wednesday afternoon about 2:30
o'clock. Death came suddenly

and Coroner Rose was notified
and went to Concord Wednesday
afternoon and held an inquest.
The jury was composed of Ellis
E. Brainer, foreman; G. E. Cald-
well, clerk; and Roy Crouse,
Spencer M. Smith, R. J. Carter,
and C. J. Dewese. The jury af-
ter hearing the evidence of Dr. A.
Johnson and A. C. Valentine,
husband of the deceased, return-
ed a verdict that death resulted
from cerebral hemorrhage.

According to the testimony of
Mr. Valentine his wife had been
suffering from rheumatism. He
heard her scream about 2:30
o'clock Wednesday afternoon and
going to the house found her
lying on the couch. She was com-
plaining of a severe pain in her
head. Witness said she had had
a similar spell some time ago.
He said he rubbed her head and
relieved the pain somewhat and
then called some of the neigh-
bors and Dr. Johnson.

Dr. Johnson told of being cal-
led and finding Mrs. Valentine
suffering from severe pains in the
head and ankles. Witness said
she had convulsions. He gave a
hypodermic of morphine. It did
not give relief and she passed
away about five minutes after his
arrival.

Deceased was 54 years of age
at the time of her death. She is
survived by her husband, her
mother, Mrs. Louis Yeck, of Con-
cord, one sister, Mrs. Mollie Bay-
less, Jacksonville; and three
brothers, Harry, Homer and John
Yeck of Concord.

Funeral services will be held
from the Concord Christian
church at 2 o'clock Saturday af-
ternoon, burial in Concord cem-
tery.

Don't Expect to be Cured of Fiery Skin Diseases

By Old-Time, Out of Date Methods
of Treatment.

Usually those who continue to
suffer from stubborn ailments are
those who refuse absolutely to
heed the teachings of medical
science. New discoveries are being
constantly made, and those who
fail to take advantage of the won-
derful accomplishments of men of
science will continue under the
handicap of disease.

Your eczema, tetter, boils, pim-
ples, acne, scaly skin eruptions,
and burning fiery irritations that
cause so much discomfort by their
irritating itching, come from an
any disease germ in your blood,
which multiplies by the millions,
these germs find some weak spot
where they can break through the
skin and set up their attack, and
if you have ever had any form of
these skin disorders, you know
that real torture is.

The reason these disorders ap-
pear so stubborn and hard to get
4 of, is because they are not
given the proper sort of treatment.
In other words, the irritation and
aching becomes so intense that the
patient thinks only of relieving
is discomfort, instead of direct-
ing his efforts toward getting rid
of the cause of it all. Hence the
constant use of lotions, salves,
caps and ointments can make no

impression whatever on your
trouble, other than to afford some
temporary relief. Are you not de-
sirous of being permanently rid of
this annoying trouble that is a
source of such constant torture?
Wouldn't you give almost anything
to be once more free from the itching
and burning that makes your
skin seem like it was on fire?

Then throw aside at once any
make-shift treatment that can only
reach the surface, and begin tak-
ing a remedy that goes direct to
the source of your trouble. Go to
your drug store, get a bottle of
S.S.S., and begin a thorough
course of this fine old blood medi-
cine that kills the germs that creep
into the blood and cause all of
your skin discomfort. S.S.S. is a
purely vegetable compound, made
from roots and herbs of recognized
medicinal value. It so thoroughly
cleanses and purifies the blood
that the germs of disease are
eliminated, and then real relief
comes.

This fine old remedy is the same
and sensible treatment for your
skin disease, as you will find by
giving it a trial. If your case
should need special advice, it can
be had without cost to you, by
writing to Chief Medical Adviser,
14 Swift Laboratory, Atlanta, Ga.

G. O. P. Convention Snap-Shots The Story of 16 Nominations

By A. H. Vandenberg

FIFTEENTH CONVENTION

The fifteenth annual Republican Convention was the most turbulent, the most spectacular, and the most tragic of any on the list. Early in the year lines were tightly drawn from coast to coast between adherents of President Taft seeking a re-nomination, and adherents of Theodore Roosevelt, seeking to prevent this outcome. The battle for delegates raged violently in almost every state. As a result, out of 1,078 seats in the Convention, 254 were under contest when the time came to make the temporary Convention roll.

The National Committee assembled in Chicago, June 6, 1912, and heard these contests until June 15. The bitterness displayed in these hearings—accentuated by the presence of Roosevelt himself in Chicago—clearly prophesied the ultimate breach which occurred a week later. And when the National Committee assigned 235 of the 254 contested seats to Taft delegates, and only 19 to Roosevelt, the probability of a breach became a certainty.

The Convention itself gathered in the Chicago Coliseum on Tuesday, June 18, 1912—the 7th anniversary of the battle of Waterloo! The initial skirmish between the forces of the two chief political gladiators came at once. The National Committee offered Elihu Root of New York as temporary chairman. The Roosevelt forces nominated Governor Francis E. McGovern of Wisconsin. After a spectacular 5-hour battle, Root won by a vote of 558 to 502, and five days later was made permanent chairman of the Convention.

The next day, an attempt by the Roosevelt forces to put upon the temporary roll the names of delegates rejected by the National Committee, was beaten by a vote of 564 to 510. By this time, the impossibility of pacific union between the two contending forces was so obvious that there was much talk of effort to agree upon a "dark house," and the names of Governor Hughes of New York and Governor Hadley of Wisconsin were freely discussed. But the Convention was destined to go to its bitter conclusion along the lines originally drawn.

Two days were now consumed by the Committee on Credentials listening to arguments all over again in connection with the 254 contested seats—with the same net result previously recorded. But this time the talk of a Roosevelt bid was open and generally

threatened. In the early morning hours of June 20, Roosevelt himself told his delegates "not to submit to a majority having no title in law or morals." The Taft forces and the National Committee, however, insisted from first to last that they were strictly within their rights and equities. All of the preliminary skirmishing was finally done on Saturday morning, June 23, 1912. One of Roosevelt's leaders read a statement to the Convention from Roosevelt himself, stating: "I hope the men elected as Roosevelt delegates will decline to vote on any matter before the Convention."

Pursuant to this mandate, further war within the Convention itself, subsided, and the Convention's work was quickly finished. Mr. Taft was renominated on a single ballot. He had 561 votes—21 more than necessary to nominate him. Roosevelt had 107 votes; Senator Cummins of Iowa, 17 votes; Senator La Follette of Wisconsin, 41 votes; Governor Hughes of New York, 2 votes.

There were 344 delegates who followed the Roosevelt instructions and did not vote. Immediately thereafter, Vice-President Sherman was renominated on a single ballot, and the Convention quickly adjourned.

That same night, the Progressive Party was born in the same city. Among the men prominent in 1920 Convention calculations who figured in the 1912 affair, are Senator Watson of Indiana, who was convention floor manager for Taft; Senator Harding of Ohio, who made Taft's nominating speech; Governor Henry J. Allen of Kansas, who presented Roosevelt's final statement to the Convention advising his delegates not to vote, and Senator Johnson of California, who was the head of the California delegation and active for Roosevelt from first to last, and who prominently participated in the birth of the new party.

Before the electoral college could meet, Vice-President Sherman died and the name of Dr. Nicholas Murray Butler, President of Columbia University of New York, was substituted by the National Committee. Dr. Butler also figures in 1920 prospects as a possible recipient of New York's preliminary convention votes.

(Continued tomorrow, with the story of the Sixteenth Convention.)

IN THE CIRCUIT COURT.

In the circuit court yesterday the trial of Alice Hansen, by next friend, against W. B. Rexroat as administrator was begun. The taking of evidence consumed much of the day and the argument was made by W. T. Wilson. At that time court was adjourned by Judge Burton until this morning. The complainant is represented by J. O. Priest and L. O. Vaught. This damage case was the result of an accident which happened nearly five years ago when the late Mrs. W. B. Rexroat while driving an automobile on West Lafayette avenue ran over Alice Hansen, a child. Suit was subsequently against Mrs. Rexroat and before the case came to a hearing the defendant died.

Later on proceedings were begun against W. B. Rexroat as administrator of his wife's estate and damage in the sum of \$10,000 are asked. The child as a result of the accident had bones in the left arm broken and she received some other injuries. The evidence as presented yesterday was somewhat conflicting.

The jurors who are hearing this case are Richard Mathews, C. L. Hankins, G. E. DeVeece, J. W. McAllister, Fred Shelburn, S. P. Carter, L. T. Hamilton, G. W. Eads, Newton Angel, E. H. Grider, Martin Cosgriff, and C. T. Wilson.

Suit in Assumpsit.

A suit in assumpsit was filed by A. C. Moffet against W. A. Taylor in the circuit court yesterday and leave was secured to docket at the present term. Judgment against the defendant was entered for \$79.25.

MORGAN COUNTY COUPLE MARRIED FIFTY YEARS

Mr. and Mrs. George Fligg Celebrate Fifth Anniversary of Their Marriage.

At the beautiful home of Mr. and Mrs. Geo. Fligg, May 29, 1920, occurred the golden wedding anniversary of the host and hostess. At an early hour relatives and friends began to arrive to spend the day with this couple, whose long married life has been spent in this community, honored and respected by all. They are the parents of six children: John and Charlie, who died in childhood; Jessie, wife of Charles E. Hamel; Pearl and Joe at home, and Roy, the brave soldier son who gave his life for his country and now sleeps in sunny France.

At noon a splendid dinner was served to the guests. Elsie Stevenson, a brother of the hostess, was the only one present that attended the wedding so many years ago, he acting as groomsman on that occasion.

Joseph Allen of California, a half brother of Mr. Fligg, expected to be with them but the illness of his wife prevented him from being present. Many nice gifts were received by them and also \$20 in gold. As the sun sank to rest the guests departed for their homes with the wish that their host and hostess may be spared to walk many more years side by side along life's pathway.

ALUMNI BANQUET AT WHITE HALL MONDAY

Greatest Meeting in History of Association Held in K. of P. Hall — Summary of Weather Conditions—Other News Notes.

White Hall, June 2.—The greatest meeting since the organization of the alumni association of the White Hall school, thirty-two years ago, was held Monday evening in the K. of P. hall, at which 168 plates were served at a banquet. L. C. Vinyard was chairman and toastmaster, and introducing the speaker of the evening, Hon. C. J. Monyhan of Montrose, Col., brought forth hearty cheers by his reference to Monyhan as the next governor of Colorado.

The speaker dwelt at some length on associations and school experiences at home, and preached the doctrine of Americanism and national security in a way that has not heretofore been excelled here, the effort equaling his splendid address Sunday afternoon at the Decoration Day exercises. Mr. and Mrs. Monyhan accompanied by W. S. Corsa departed on the Hummer from Roodhouse for Chicago, all to remain during the Republican national convention. Monyhan seconds the nomination of General Wood. It was at one time thought that he would make the nominating speech, but this honor finally fell to Governor Allen of Kansas. Mr. Corsa will look after some committee work for the agricultural interests that have some business with the framers of the Republican platform. The Monyhan children will remain with their grandfather, John J. Monyhan, until the conclusion of the convention.

The alumni association elected the following officers: President, C. F. Wemken; vice president, Lyndall Rose; secretary, Mildred Winn; corresponding secretary, Laura Baker; treasurer, Mabel Lowenstein.

Decoration Day Program.

Decoration Day services were held at Whiteside park at 2 o'clock Sunday afternoon. The program began with the singing of the Star Spangled Banner by school children and there were also musical numbers by a double male quartet. The principal speaker of the day was James H. Shaw of Bloomington, and his words were well worth hearing. Lincoln's Gettysburg address was read by Harley Crabtree and Miss Colura Day played the audience by a reading. The members of the quartet were Rev. E. C. Lucas, Capt. Dean Corsa, H. W. Shirley, L. R. Winn, W. H. Teter, H. W. Gathuly, V. T. Winters, Dr. A. C. Rich.

Farm Work Well Under Way.

There was no rain during the week ending at sunset on the 31st and farm work has gained such headway that practically half of the ground for corn acreage has been broken. The plowing and seeding of corn is still progressing under the most favorable weather conditions. Little more than two weeks being the limit put on the time for corn planting. One local student of the seasons and their relation to crop production states that if the weather turns out as there is every reason to believe during the summer, we may anticipate a bumper corn crop. The fly damage to wheat and winter kill makes 90 the maximum figure at which the condition of winter wheat can be placed. Pasture and meadow conditions are excellent. Strawberries are in bloom, and two growers report having fresh strawberry short cake for Sunday dinner. The crop is in excellent condition.

The Rainfall During May.

A summary of weather conditions during the month of May shows that the total rainfall was 5.91 inches, 1.14 inches above normal, and the average temperature was 61.9 degrees, 2.9 degrees below normal. The heaviest rainfall in 24 hours was 2.91 inches on the 12th. There were eleven days with 0.01 inch or more precipitation, fifteen clear days, ten partly cloudy and six cloudy days. The highest temperature reading was 86 on the 22nd, and the lowest 32 on the 14th. On the latter date ice and frost formed, but no damage resulted. Thunder storms occurred on the 2nd, 12th and 24th. The rainy season began the first of March, and while the rainfall has not been excessively above normal, the distribution has been such as to handicap farm work. The total for March was 4.75 inches, 2.35 inches above normal, and the total for April was 3.29 inches, which is 0.28 of an inch less than normal for that month. In March the temperature averaged higher and in April it was lower than normal. R. B. Pearce.

FISHING IN THE LAKES

Many persons are fishing in Nichols park and Mauvaisterre lakes. Really there should be no fishing till the latter part of this month but the park board doesn't wish to be too hard on the anglers but it simply will not do to take the small fish from the water. Boys have been seen with strings of fish, some of the fish not more than three inches long. This must be stopped at once. Throw back into the water all fish under six inches in length. Hereafter any person found with fish less than six inches long in their possession will be fined.

We have an opening for ten girls; do not phone; apply in person. Supt. Swift & Co. 6t.

LITTLE TRADING

ON STOCK EXCHANGE
NEW YORK, June 2.—The stock market was in a state of suspended animation during the greater part of today's trading. The market was in a state of suspended animation during the greater part of today's trading. The market was in a state of suspended animation during the greater part of today's trading.

Price tendencies were mostly downward again, although losses, except among selected issues, were partly relieved when the money market developed unexpected ease and the shorts found it expedient to cover.

Call money opened at 8 per cent, a reflection of yesterday's sharp rise but relaxed to six per cent in the last hour on a surplus of offerings, to which out of town banks made substantial contributions.

A steadier tone prevailed in the foreign exchange, especially in the London quotation. The Paris rate also recorded improvement, but marks receded.

Advices dealing with industrial conditions were conflicting. The equipment companies reporting moderate buying, while additional curtailment of operations was indicated in the woolen, cotton and leather industries.

Larger deliveries of finished steel and iron products reflect further relief in the freight situation.

Stocks showed no alteration from their recent hesitant tone. The moderate rally in the final trading made greater headway in speculative issues than among standard shares, where net decline ruled.

Dullness in stocks extended to the bond market, with liberty issues experiencing further depreciation, in some instances yielding one per cent. Speculative or convertible railroad bonds were firm and foreign issues were featured by the strength of Anglo-French 5s.

Total sales (par value) aggregated \$12,450,000.

Old United States bonds were unchanged on call.

FRESH UPURNS IN CORN MARKET

CHICAGO, June 2.—Material fresh upturns in the price of corn resulted today from continued failure of railroad efforts to enlarge receipts here. The close was unsettled, but 2c to 2 1/2c net higher, with July \$1.75 to \$1.75 1/2 and September \$1.61 1/4 to \$1.61 1/2. In provisions the outcome ranged from 26c decline to a rise of 12c.

Announcement that only 95 cars of corn had arrived in Chicago today brought about immediate and persistent buying on the part of big commission houses. The advance which prices quickly showed was soon given further impetus through reports that the 1920 grain season was uniformly ten to twenty days late in all the states that as a rule have a surplus yield.

Besides, in some important sections, where planting of corn still remained to be done, excessive moisture was threatening additional delay. Word of liberal new export business in wheat tended subsequently to prevent any notable reaction in the corn market, although profit-taking sales reached considerable volume at times.

Oats, like corn, appeared to be chiefly influenced by the lack of a freemovement of supplies to distributing centers.

Provisions were somewhat depressed by knowledge that the stock of lard here is the second heaviest ever known.

HELD ANNUAL BANQUET AT ROUTT COLLEGE

Alumni Association Formed With Large Membership—Interesting Program Given.

Alumni of Routt college organized an association Wednesday and then enjoyed the annual banquet which was served in the college auditorium. At the business session the following officers were chosen:

President—Leo Flood.

First vice president—Margaret Ring.

Second vice president—Donald Clancy.

Third vice president—Carl Hamilton.

Secretary and treasurer—Mrs. John Meany.

The association begins its existence with an enrollment of nearly 200. A business meeting was announced for next Monday, June 7.

At 7 o'clock the alumni gathered about the tables which the members of the Ladies Aid society had prepared. The tables were handsomely spread and the menu was excellent.

Letters Were Read

Following the final course letters were read from a number of the graduates who were unable to be present. This list included Edward Stapleton, Thomas Koyne, Francis J. Perry, George Leonard, George Hobbs, Miss Margaret Walsh, Miss Elizabeth Mertz, William Sehy, Edward Alexander and Emmet Keating.

There were letters also from Thomas Quigley and Joseph Craugh, former members of the faculty.

William Rook was introduced as toastmaster and made brief reference to the successful year just closed and the efficiency shown by the students in both the high school and college departments. Miss Anna Harmon was the first speaker and responded with original verses which are quoted below.

Leo Flood said that as one of the alumni as he looked up and down the tables and saw the students of other years gathered, that he realized how much interest there is shown in Routt college and what this interest means. He congratulated the members of the class finishing the high school for the excellence of the work done and expressed the hope that all would continue thru the college course.

Miss Florence Loneragan spoke of her three years of experience after leaving college. She said that she had come in contact with the graduates of other colleges and universities and so had come to a keener appreciation of the work done at Routt.

Miss Helen Sweeney briefly congratulated the members of the class and expressed the hope that they would continue their good work in the college in the years to come.

John Meany and Joseph Becker spoke in the same vein. Miss Edna Ryan also addressed her remarks to the members of the class, expressing pleasure for the progress made and pointing to the importance of the work possible in coming years.

The Work of Years

Father Formaz was the last speaker on the program and said that the attendance was remarkable and gave most certain testimony of the interest of the alumni in their alma mater. He said that in response to 250 invitations that over 200 were present and that letters or regrets had been received from all the others. He referred to the first class which graduated from the college and to the trying circumstances that surrounded the students. Then—circumstances which in no way interfered with their success. He said that the pupils of the present day might well find inspiration from the work done by the members of that first class, and others of the earlier years.

Father Formaz said that as he turned back in memory over the years of his connection with Routt college, that the students were not only ready to do what was asked of them but also showed initiative and undertook many lines of work on their own account. "Education," he said, "worth while knowledge is something that cannot be taken away from you. It is a pleasure to those interested in the conduct of such an institution as this to note the success made by those who leave its portals."

"You, of the Routt alumni, can well feel proud of the places in the world that your members are filling. For nineteen years I have been associated with the work and I have at no time been weary for it has been a labor of love and with its rewards. Your presence here and your attitude shows your interest in your alma mater and that interest is a continuing will be helpful to the college."

Athletes Honored.

In the earlier part of the program Father Formaz with appropriate statement presented purple R's to members of the basketball team including Wolfe, Burge, Gwynn, Zelt, Carson and Costello. The R's were presented to the members of the junior team: Whalen, Costello, Dowling, Cibulka and Saner.

The program included the singing of Routt college song to the tune of America. This is the final verse: We'll think of thee for aye, Ah thru life's rugged way, Dear happy home, Lead let the chorus ring, Till back re-echoing, The hills and valleys ring, Routt college dear.

Candrick's orchestra furnished music while the banquet was being served and at the conclusion of the program for the several hours spent in dancing.

A Response in Verse.

The following verses were written and presented as her response, by Miss Anna Harmon:

When one day I read a letter,
I thrilled indeed with purest joy,

It said, "Do come to old R. C.
And all your time employ."

In church 'twas said that all should come
To meet old friends of college days,
"And none should fret about a speech
Unless due word was had," F. F. says.

Our president ne'er lied, I thought
And to this feast in glee I came,
But now I'm asked to make a talk,
Late word I had—and must be gone."

So here's to old Routt College, dear,

Our alma mater good and true,
Who never never fails to welcome home
Her sons and daughters, all of you.

COSTLY CHURCH FIRE

Prof. H. E. Storrs writes an account of a fire in the fine large church which he attends in Los Angeles. It took place while the brotherhood of the church were treating the children to a banquet. While the children were eating one little one noticed the trouble and told them the roof was on fire. The pastor, Dr. Patton, at once took hold and helped the firemen and so the flames didn't spread to the main building only damaging the other part badly. The minister climbed a ladder and carried up a hose, losing his hat in the effort.

The fire, it was supposed with only a doubt, was started by crossed electric wires.

SALVATION ARMY PLANS WIDER WORK

MORGAN COUNTY ADVISORY BOARD NAMED—STATE WIDE CO-OPERATIVE EFFORT UNDER WAY.

With the organization of the Morgan County Advisory Board of Salvation Army which occurred last evening all of the activities of this great welfare body are placed at the disposal of every community in this county.

Charles L. Witham, field man for the home service department of the Salvation Army, representing the territorial headquarters in Chicago, has been in Jacksonville several days to explain the lines of work in which the Salvation Army is now engaged.

It was as a result of Mr. Witham's visit and explanation that the advisory board here was formed.

The Salvation Army has been peculiarly successful along certain definite lines during the past forty years in this country but the greater part of its activities have been confined to the larger centers of population. The big cities where the lower strata of society were the first scenes of its work. It has been realized however that these elements of society in the big cities are constantly augmented by recruits from the rural sections all over the country.

It is believed that if the Salvation Army can apply its methods to each rural section it will aid those sections and also aid to stop this undesirable migration to the congested centers.

The advisory board will make a study of Morgan county and wherever it is found that the services of the Salvation Army can be utilized to good advantage the board will make its recommendations to territorial headquarters and trained officials will apply the methods which have been successful for so many years.

Following are the officers and members of the Morgan County Advisory Board of the Salvation Army: T. V. Hopper, president; T. C. MacVicar, secretary; Mayor Edgar E. Crabtree, A. T. Capps, Henry Frisch, J. W. Walton, C. A. Johnson, H. P. Samuel, R. Y. Rowe, George Riggs, John O'Donnell, and H. A. Perrin.

Here are the agencies through which, in its Home Service Program for 1920, the Salvation Army offers to be of service to this county:

Emergency Department—A relief branch available for immediate service in the event of any disaster.

Missing Friends Bureau—To locate the location of persons in any part of the civilized world, whose whereabouts are unknown.

Juvenile Industrial and Agricultural Schools—Where physically and morally sound citizens are developed from delinquent boys and girls, and where orphans are reared and educated.

Boys' Friend Bureau—To care for the lad without funds or friends who would be thrown, otherwise, upon his own resources in a strange community.

Young Women's Boarding Homes—In which girls of small incomes may obtain good food and clean, attractive quarters at prices within their reach.

Rescue and Maternity Homes—To shield and are for the girl whose innocence has been betrayed, give her a fresh start on the right road, and keep her and her baby together.

Industrial Homes—Men who have become derelicts are here restored to the wage-earning class.

Working Men's Hotels—Where a poor man may find a clean bed at a nominal price amid surroundings that make for his moral and spiritual regeneration.

Free Employment Bureaus—To obtain jobs for the "chronically unemployed."

Prison Work—Caring for the families of prisoners and rehabilitating the released prisoner in respectable society.

Slum Settlements—Where practical assistance is extended to those who drift into the lowest levels of city life.

Fresh Air Camps—Conducted to give summer outings to mothers and children of the poor of crowded city sections.

Christmas Dinners—Furnished to poor families and needy individuals.

Anti-Suicide Bureau—Which has met with marked success in the arrest of this mania.

Work Among Service Men—Continuance of the well-known war record of the Salvation Army among those men still in uniform.

Field or Evangelistic Work—Preaching the gospel in language suited to the simplest of men, with the hope of immediate decision for Christ.
